

Our family STRONGLY opposes the possibility of further allowing our media and communication resources to be held in the hands of fewer and fewer owners in corporate America. We are drifting dangerously toward a mere shell/appearance of a democracy that supports the free flow of ideas and beliefs that is noble, courageous and fair-spirited to ALL ! Please do not further erode our freedoms. Please do not let our airwaves be even further dominated by the "Clear" Channels of our country that is attempting to move us to an oligarchy. Thank you!
